Administrator: Paula Garner

Survey Exit: 12/04/2024

Gregory C. Gaitlin, RN, MSHAI

Plan of Correction Accepted 12/31/2024 10:37 AM

A602-420-5-4-06 (2) (A) (B) (C) (D) Care of Residents

1. RI#1 and RI#2 baseline vital signs were incomplete upon admission. The administrator notified all staff of deficiency.

2. All baseline vitals for new admissions will be obtained and reviewed by the administrator or designee indefinitely to ensure compliance.12/21/2024

3. Plan of corrections will be stored in the administrator's office.

A612-420-5-4-06 (4) (C) (D) (E) (F) Care of Residents

1.The residents cat vaccinations were identified as out of date. The cat has since been vaccinated and is now up to date. 12/11/2024.

2.Vaccination certificate is attached and will be stored in the administrator's office.

A1001-420-5-4-10 (1) Sanitation and Housekeeping

1.Water Temperature in room 5 was identified as exceeding a temperature of 110 degrees. Maintenance has corrected the temperature and will be maintained at a temperature of 110 degrees. All rooms will continue to be routinely checked monthly. Additionally, random temperature checks will be done every week for the next 3 months to ensure compliance. The document of correction will be stored in the administrator's office. 12/3/2024

A1003-420-5-4-12 (5) Physical Environment

1. Vinyl siding on the exterior of the building was identified as having multiple holes. This vinyl siding has since been replaced by the maintenance department. Maintenance will be conducting visual checks of exterior sidings on a monthly and routine basis. 12/10/2024

2. Documents of correction will be stored in the administrator's office.
