A 000	Initial Comments On September 22, 2022, an unannounced licensure survey was conducted for this 16 bed Assisted Living Facility (ALF) with a census of 8. There was one complaint investigated during this survey. LC#20190429013 was unsubstantiated with no deficiencies cited as a result of the complaint investigation. Deficiencies were cited during this survey for failure to operate in accordance with the Rules of the Alabama State Board of Health (SBOH), Alabama Department of Public Health (ADPH), Chapter 420-5-4, Alabama Administrative Code, for Assisted Living Facilities. The deficiencies cited pose a potential risk of harm to the residents and require a plan of correction.	A 000		
A 405	420-5-4-.04 (6) Personnel. (6) Training. (a) All staff who have contact with residents, including the administrator, shall have initial training prior to resident contact and refresher training annually and as necessary. Documentation of all staff training to include attendance records and any required post-test or evaluations shall be maintained in the facility. In addition to any information otherwise required by the facility's policies and procedures, the facility shall ensure that prior to resident contact, all staff members receive training on the subject matter listed below: 1. State law and rules on assisted living facilities. 2. Facility policies and procedures.	A 405

3. Resident rights.

4. Current certification from the American Heart Association or the American Red Cross in cardiopulmonary resuscitation (CPR) within 90 days of hire.

5. Identifying and reporting abuse, neglect, and exploitation.

6. Basic first aid.

7. Advance directives.

8. Protecting resident confidentiality.

9. Resident fire and environment safety.

10. Special needs of the elderly, mentally ill, and mentally retarded.

11. Safety and nutritional needs of the elderly.

12. Identifying signs and symptoms of dementia.

(b) Cardiopulmonary Resuscitation. An assisted living facility shall be staffed at all times by at least one individual who has a current certification from the American Heart Association or the American Red Cross in CPR. All employees of an assisted living facility who have contact with residents must be certified in CPR from the American Heart Association or the American Red Cross. New employees must obtain certification in CPR within 90 days of hire. An assisted living facility equipped with an

A 405	Continued From page 2 automated external defibrillator (AED) shall be staffed at all times by at least one individual who has a current certification from the American Heart Association or the American Red Cross in AED utilization. Substitute training approved by the Department for use by emergency medical services personnel (EMSP) may be utilized in lieu of those courses or certifications offered by the American Heart Association or American Red Cross in CPR or AED utilization. (c) If the facility admits or retains residents with special needs such as diabetes, hospice, or oxygen therapy, the facility shall provide staff with the appropriate training. (d) Continuing Education. All staff must receive annual continuing education sufficient to remain knowledgeable of the training specified above. This Rule is not met as evidenced by: Based on record reviews and interview, the facility failed to provide required staff training. Findings: On the afternoon of September 21, 2022, the surveyor reviewed employee files for Employee Identifier (EI#1), EI#3, EI#4 and EI#5. There was no documentation of training in diabetes. Two current residents of the facility had a diagnosis of diabetes mellitus. EI#1 stated diabetes training had not been completed for staff but added diabetes training would be added to initial training for all employees.	A 405

A1203	420-5-4-.12 (5) Physical Environment. (5) General Building Requirements - Family, Group, and Congregate. (a) Structural Soundness and Repair. The building shall be structurally sound, free from leaks and excessive moisture, in good repair, and painted with sufficient frequency to be reasonably attractive inside and out. The interior and exterior of the building shall be kept clean and orderly. (b) Temperature to be Maintained. The facility shall maintain a comfortable temperature. A comfortable range is between 71-81 degrees Fahrenheit. (c) Lighting. Each resident's room shall have artificial light adequate for reading and other uses as needed. All entrances, hallways, stairways, inclines, ramps, cellars, attics, storerooms, kitchens, laundries, and service units shall have sufficient artificial lighting to prevent accidents and promote efficiency of service. Night lights shall be provided in all hallways, stairways, and bathrooms. (d) Screens. All screen doors and operable windows shall be equipped with tight-fitting, full-length insect screens. Screen doors shall be equipped with self-closing devices. (e) Emergency Lighting. 1. All assisted living facilities shall provide emergency artificial lighting to adequately illuminate halls, corridors, kitchens, dining areas, and stairwells in case of electrical power failure. A1203	Continued From page 4 As a minimum, dry cell battery-operated lighting shall be provided to light such spaces. 2. Emergency lighting must provide illumination in accordance with the currently adopted Life Safety Code for at least 90 minutes. (f) Floors. 1. All floors shall be level, smooth and free of cracks, and finished so as to be easily kept clean. The basic requirement for floor finishes shall be wall-to-wall with such finishes as paint, stain, sealer, carpet, sheet vinyl, vinyl tile, hard tile, or other appropriate floor finish. 2. Any differences in floor levels shall not prevent a resident from navigating safely throughout the facility. (g) Walls and Ceilings. All walls and ceilings shall be of sound construction with an acceptable surface and shall be kept clean and in good repair. (h) Windows. Operable windows shall be so constructed and maintained so that they fit snugly, and are capable of being opened and closed easily. (i) Ceiling Height. Each room occupied by residents shall have a ceiling height of eight feet or more. Existing facilities with ceiling heights less than eight feet shall be acceptable when the height complies with the codes. (j) Handrails. If handrails are installed in halls or corridors, the handrails shall be mounted at 30-36 inches above the floor and returned to	A1203

A1203	Continued From page 5 the wall at each end. (k) Stairways. Stairways shall be well lighted, kept in good repair, and have handrails. Open space under stairs shall not be used for storage purpose. All walls and doors under stairs shall meet the same fire rating as the stairwell. (l) Doors. 1. In each new assisted living facility, doors of resident bathrooms connected to resident bedrooms shall swing into the bedroom. 2. Bedroom and bathroom doors may be equipped with hardware that will permit a resident to lock himself within the room, provided a master key is readily accessible for the staff at a central location. 3. Resident bedroom and other exit access doors in each assisted living facility shall be at least three feet wide. Bedroom doors in Family assisted living facilities shall not be less than 32 inches wide. 4. Exterior egress doors except the main entry/exit door, may be equipped with a delayed egress locking system installed in accordance with NFPA 101. Other special locking arrangements are permitted only in specialty care assisted living facilities. 5. Exit doors swinging outward shall swing out over a landing having a minimum length and width equal to the door's width at the same level as the floor level, except existing doors shall not have more than a four inch step down. Exit doors of Family facilities may swing	A1203

A1203	Continued From page 6 inward. (m) Ventilation. The building shall be well-ventilated at all times to prevent accumulation of objectionable odors. Kitchens, laundries, service rooms, toilets, and bathrooms shall be ventilated by windows, gravity vents, or mechanical means as necessary to prevent offensive odors from entering other parts of the facility. (n) Fire Extinguishers. Fire extinguishers shall be provided for each hall, kitchen, and laundry, of type and capacity appropriate to the need. 1. Each fire extinguisher shall receive an annual inspection with maintenance, and recharging when necessary, by a fire equipment servicing representative. An annual servicing tag shall be attached to the extinguisher reflecting the name of the servicing company, representative, day, month, and year of maintenance. 2. A visual inspection of each fire extinguisher shall be conducted monthly by designated staff of the facility and documented on the attached extinguisher tag by the designated staff person. (o) Call System. Except in Family facilities, a central electric or electronic call system shall be conveniently provided for each resident, usable in bedrooms and bathrooms. The call system shall be certified to meet the applicable Underwriters Laboratories standard. (p) Manufactured homes/mobile homes are not permitted.	A1203

A1203	Continued From page 7 (q) Fireplaces and inserts, shall be inspected and cleaned annually, and shall comply with the currently adopted building code. Openings shall be protected with screens, or doors. (r) Exit marking. In Group and Congregate facilities, a sign bearing the word "EXIT" in plain legible block letters shall be placed at each exit. Additional signs shall be placed in corridors and passageways wherever necessary to indicate the direction of exit. Letters of signs shall be at least four inches high. All exit and directional signs shall be kept clearly legible by continuous internal electric illumination and have battery back-up or emergency power. (s) Heating, Lighting, and other Service Equipment. 1. Central or individual room gas heating systems shall be of the enclosed flame type equipped with automatic flame shut-off control and shall be vented directly to the outside. Heating units of any type shall be located to avoid direct contact with any combustible material and shall be maintained in accordance with manufacturer's recommendation. 2. Open flame and portable heaters are prohibited in assisted living facilities. This does not apply to a fire place with gas logs protected as noted elsewhere in these rules. 3. Lighting shall be restricted to electricity. Electric wiring, motors, and other electrical equipment in all assisted living facilities shall be in accordance with local electrical codes	A1203

A1203	Continued From page 8 and the NFPA National Electrical Code. This Rule is not met as evidenced by: Based on observations and interview, the facility failed to document a visual inspection of each fire extinguisher monthly. Findings: During a tour of the facility on the afternoon of September 21, 2022, the fire extinguishers located in the Laundry Room and in the hallway beside Resident Room 1 did not show documentation of a monthly visual inspection since July 2022. EI#1 observed the tags on the fire extinguishers and agreed the monthly visual inspections had not been documented for the month of August 2022. CONNIE CHERRY, REGISTERED NURSE	A1203
